F. No.6-179/2019(TG)

Dated: February, 2021

The Under Secretary (FD-III)
 University Grants Commission
 Bahadur Shah Zafar Marg
 New Delhi-110 002

24 FEB 2021

Subject: Release of Grants-in-aid to Principal, Sri Sathya Sai College for Women, BHEL, Dist. Bhopal-462 001 Madhya Pradesh for the year 2020-2021 under Travel Grant Scheme (Plan).

Sir/Madam,

I am directed to convey the sanction of the University Grants Commission for payment of grant of Rs.83,979/- (Rupees Eighty three thousand nine hundred seventy nine only) as Travel Grant reimbursement to The Principal, Sri Sathya Sai College for Women, BHEL, Dist. Bhopal-462 001 Madhya Pradesh in respect of Dr. Shampa Malhotra, Associate Professor, Department of English to visit China from 29th July-2nd August, 2019 for the 2020-2021 (Plan) expenditure incurred during 2020-2021.

Name of the Item	Head of Account	Grant now being Sanctioned	Grant already Sanctioned	Total Grant
Reimbursement of Travel Grant	3(A) 19 (V) 31	83,979/-	--	83,979/-

- The sanctioned amount is debit to 3(A) 19 (V) 31 and is valid for payment during the financial year 2020-2021 only.
- The University/Institution shall ensure that all the payment of approved items to the beneficiary/vendors shall be made only through the Expenditure Advance Transfer (EAT) Module of PFMS.
- The amount of the grant shall be drawn by the Under Secretary (Drawing and Disbursing Officer) UGC on the grants-in-aid bill and shall be disbursed to and credited to The Principal, Sri Sathya Sai College for Women, BHEL, Dist. Bhopal-462 001 Madhya Pradesh through Electronic mode as per the following details:
 - Details (Name & Address) of Account Holder : The Principal, Sri Sathya Sai College for Women, BHEL, Dist. Bhopal-462 001 Madhya Pradesh
 - Account No: 06630100005241
 - Name & address of Bank branch: UCO Bank, Piplani, Bhopal-462 022
 - MICR Code: 462028005
 - IFSC Code: UCBA0000663
 - Type of Account: Saving Bank
- The Grant is Subject to the adjustment on the basis of Utilization Certificate in the prescribed Performa submitted by the University/Institution.
- The University / Institution shall maintain proper accounts of the expenditure out of the Grants which shall be utilized only on the approved items of expenditure.
- The University / Institution may follow the General Financial Rules, 2017 and take urgent necessary action to amend their manuals of financial procedures to bring them in conformity with GFRs, 2017 and those don't have their own approved manuals on financial procedures may adopt the provisions of GFRs, 2017 and instructions/guideline there under from time to time.

*Accounts
 this is repaid in me

7. The Utilization Certificate to the effect that the grant has been utilized for the purpose for which it has been sanctioned shall be furnished to UGC as early as possible after the close of current financial year.
8. The assets acquired wholly for substantially out of University Grants Commission's Grant shall not be disposed or encumbered or utilized for the purposes other than those for which the grants was given without proper sanction of the UGC and should at any time the University ceased to function, such assets shall revert to the University Grants Commission.
9. A Register of Assets acquired wholly or substantially out of the grant shall be maintained by the University in the prescribed Performa.
10. The grantee institution shall ensure the utilization of grants-in-aid for which it is being sanctioned / paid. In case of non-utilization/part utilization thereof, simple interest @ 10% per annum, as amended from time to time on the unutilized amount from the date of drawl to the date of refund as per provisions contained in General Financial Rules of Govt. of India, will be charged.
11. The University / Institution shall follow strictly the Government of India / UGC's guidelines regarding implementation of the reservation policy [both vertical (for SC, ST & OBC) and horizontal (for persons with disability etc.)) in teaching and non-teaching posts.
12. The University / Institution shall fully implement the Official Language Policy of Union Government and comply with the Official Language Act, 1963 and Official Languages (Use for Official Purposes of the Union) Rules, 1976 etc.
13. The sanction is issued in exercise of the delegation of powers vide UGC Order No. 130/2013 [F.No. 10-11/12 (Admn. IA & B)] dated 28/5/2013.
14. The University /Institution shall strictly follow the UGC Regulations on curbing the menace of Ragging in Higher Education Institutions, 2009.
15. The University / Institution shall take immediate action for its accreditation by National Assessment & Accreditation Council (NAAC).
16. The accounts of the University / Institution will be open for audit by the Comptroller & Auditor General of India in accordance with the provisions of General Financial Rules, 2017.
17. The annual accounts i.e. balance sheet, income and expenditure statement and statement of receipts and payments are to be prepared strictly in accordance with the Uniform Format of Accounting prescribed by Government.
18. Funds are available under the scheme.
19. This issues with the concurrence of F.A vide Diary No.100186 dated 13.01.2021.
20. This issues with the approval of Chairman vide Diary No.54243 dated 14.01.2021.

Yours faithfully,

(Shashi Malik)
Under Secretary

Microwave Assisted Extraction and Phytochemical Analysis of *Acacia arabica* Bark: Greener Perspective

Dr. Varsha Saxena*, Dr. Neena Arora

Department of Chemistry
Sri Sathya Sai College for Women, Bhopal, INDIA
Email: sinhavarsha@yahoo.com

Abstract

The aim of this study is to optimize the extraction process for *Acacia arabica* bark which can be a source of potential therapeutic drugs. The most commonly used techniques are maceration, soxhlet extraction and microwave assisted extraction. This study demonstrates the extraction and phytochemical analysis of bark of *A. arabica* using all three techniques in three different solvents. The solvents used were methanol, ethyl acetate and methanol-water mixture. Phytochemical analysis of extract in these solvents has been evaluated to compare the effect of solvent and extraction technique. TFC, TPC and TTC of methanolic extract obtained from all three methods were determined. In microwave extraction technique TPC, TFC and TTC were found to be 83mg/gm equivalent to Gallic acid, 33mg/gm equivalent to Rutin and 208 mg/gm equivalent to Atropine respectively. This is almost double the quantity obtained by conventional method. Methanolic extract by microwave method showed high free radical scavenging activity as evidenced by low IC₅₀ value in DPPH (40.29µg/ml). The results indicate that best extraction of phytochemicals can be achieved using methanol as solvent under microwave irradiation as the process gets accelerated and requires lesser use of solvent. This technique is therefore time efficient as well as environmental friendly.

Key Words: microwave assisted extraction, soxhlet, acacia, bark, antioxidant activity

1. Introduction

Plants have long been established as rich source of medicines which have made significant contribution to human health and general well being. Since time immemorial herbal medicines or plant extracts have been used for treatment of various disorders. India has been blessed with rich flora which have been serving as source of traditional medicines. *A. arabica*, commonly known as 'babool' or 'kikar' is a medium sized tree belonging to the family Leguminosae and the sub-family Mimosoideae. Babool is seen all over the Indian subcontinent upto an altitude of 3000 meter. It is called Indian gum-Arabic tree. It is very commonly found in the forest of Madhya Pradesh, Chhattisgarh, Jharkhand, Uttar Pradesh and Rajasthan. This plant has impressive history of medicinal usage specially for the treatment of skin,

stomach and tooth problems. It has been recognized worldwide as a multipurpose tree.¹

Phytochemicals are naturally occurring chemicals in medicinal plants, leaves, vegetables and roots that have defense mechanism against various diseases.^{2,3,4} Phytochemicals are primary and secondary compounds. *A. arabica* bark contains several phytochemicals like catechin, epicatechin, dicatechin, epigallo catechin, gallic acid & its methyl ester, quercetin, catechol, epicatechol, leucocyanidine gallate, sucrose and tannin.^{5,6}

The bark, due to its large quantity of tannin, is a powerful astringent. Its decoction is largely used as a gargle and mouth wash in cancer and syphilitis. The juice of the bark mixed with milk is dropped into the eye in
