

Sri Sathya Sai College for Women , Bhopal

Report 2021-2022

Department of Mathematics

The department organises various activities for the students throughout the year to help them understand the subject in a stress free environment. In this series the following activities were held during the session

- As the department is a PG department one of the regular feature of the department is the presentation series by the PG students on various topics of mathematics.
- One of the main highlights of the departmental activity every year is the publication of departmental magazine ANANT. This issue of ANANT was designed and prepared by the M.Sc. final year students.
- An exhibition cum competition of charts on the topic “Mathematicians and Scientists in Indian freedom struggle” as apart of Azaadi k Amrit Mahotsav was also organised by the department.
- Ms. Deepali (B.Sc. Iyr) and Ms. Ambika Parihar (M.Sc. IV sem) under the guidance of the department successfully completed short term courses on graph theory and Mathematical modelling respectively on Swayam portal.
