Report 2023-24

Department of Mathematics

“Mathematics is the most beautiful and most powerful creation of the human spirit”

Inspired by the above thought the Department of Mathematics is constantly striving to motivate students to overcome the fear of Mathematics and to develop logical thinking. To attain this purpose the department organised the following activities during the session.

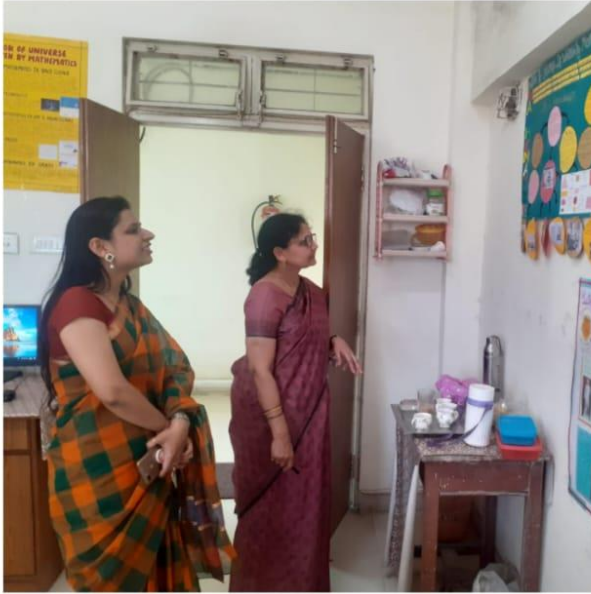

A presentation series by the students of B.Sc. and M.Sc. mathematics was organised on the topics of higher mathematics and learning in the month of August 2023.

Department members along with the students visited regional science centre to attend the lecture on the mission chandrayan 3 on 23 August 2023.

To develop the creative skills of the students and at the same time to enable them to appreciate the beauty of the subject an essay competition on the topic “ Mathematics language of universe. “was organised for the students on National Mathematics day.

One of the main highlights of the departmental activity every year is the publication of departmental news letter ANANT by the students.

As a part of science day celebration the department organised chart exhibition on the theme” Eminent mathematicians and their contributions”.

Department of mathematics
on occasion of
" NATIONAL MATHEMATICS DAY "

organises
