Environmental Wellbeing & Climate Action: Towards Sustainable Planet (Hybrid Mode)

Organized by Internal Quality Assurance Cell

23rd July, 2026

Sponsored by
M. P. Council of Science & Technology, Bhopal

Venue:

Auditorium,
SSSCW, Bhopal.

Time: 10:30 AM

About SSSCW

"We envision the emancipation and empowerment of women through value based education enabling them to participate actively in the work of nation building and social reconstruction.

Sri Sathya Sai College for Women, Bhopal is unique among the various colleges of Bhopal, as it was founded by Bhagwan Sri Sathya Sai Baba on the 4th of July, 1974 on the Guru Purnima day. The institution focuses to promote the ideals of Sai Education through healthy practices and inculcating values among the students. The college offers Undergraduate and Post-graduate Programmes in Science, Arts, Commerce, Computer Science, Education, Management and apprenticeship embedded courses at present.

About Bhopal City

Bhopal is known for its laidback charm and is a part of the Malwa Plateau in the north-western part of Madhya Pradesh. The stately aura all around endows this town with a distinguishing appeal that never fails to impress even the most discriminating tourists. Bhopal is considered as the city of lakes and it is quite true as it has numerous exquisite lakes. Make sure that you have enough time in hand as there are many places worth visiting in Bhopal.

About the Seminar

This seminar explores the critical intersections of environmental health, climate action, and economic vitality necessary for sustainable global progress. Addressing contemporary crises like climate change, environmental degradation, public health risks demand integrated and economically viable strategies that carefully balance economic growth with crucial ecological responsibility.

The seminar will emphasize on the innovative economic solutions—including green technologies, renewable energy systems, circular economy models, sustainable industrial practices, and climate-responsive policies that mitigate environmental impacts while fostering inclusive and resilient economic growth. These approaches work to reduce pollution, conserve natural resources, safeguard vital ecosystems services, and elevate human health and well-being world wide.

Objective of the Seminar

- To inspire participants to adopt environmentally responsible and economically viable practices in research, education, and professional life.
- To foster critical thinking, innovation, and ethical responsibility toward building a sustainable, climate-resilient, and healthy planet for future generations.
- To understand the link between environmental health, climate change, and economic growth.
- To highlight the economic impacts of environmental degradation.

Themes of the Seminar

- Environmental ethics and Climate Change Linkages
- Economic Impacts of Environmental Degradation
- Green Economy Models and Circular Economy Approaches
- Renewable Energy Transitions
- Waste-to-Wealth Innovations and Entrepreneurship
- Sustainable Employment Opportunities
- Policy Instruments and Alignment with the Sustainable Development Goals (SDGs)
- Urbanization, Environmental Health, and Climate
- Green Audits, Carbon Footprint Tracking, and Environmental Reporting
- Environment and Heritage Management
- Healing through Nature

Call For Papers

Original & unpublished research papers related to the seminar themes are invited in Hindi / English from academicians, budding scholars, students and researchers. The reviewed selected papers will be published in the peer reviewed journal / book with ISSN/ ISBN. Participant may present paper offline at the venue or online through hybrid mode.
